Letters to The Editor

Soon the voters will be subjected to the biggest propaganda drive in the history of California politics, they will be subjected to pictures of smiling Bill Knowland with such modest descriptions as Knowland Man of Honor, Knowland Man of Courage; Knowland Man of Decency; Knowland Man of Integrity.

'Now if all this doesn't nauseate you there will be hundreds of signs portraying Big Bill as Defender of the working man. Defender of women and children; Defender of minority groups;

With 'the N.A.M. and all the labor hating groups contributing thousands to his overflowing campaign fund, and even more thousands to the Right to wre k proposition 18, we can expect to see the television channels and radio stations completely filled with Knowland Propaganda; the newspapers will be even worse.

Is this loud belligerent man the friend of the working man? The only way to check is to look at his Senate voting record. there the ugly story is told. Naturally he has voted for every Punitive Bill which restricts the rights of unions dating back to Taft-Hartly. But on such bills as liberalizing Social Security, hospital construction minimum wage revisions, civil rights and unemployment insurance, Big Bill has voted a resounding NO. In all of his voting record since 1951 as tabulated by the AFL-CIO; shows 76 bad votes and 20 good ones. And yet Knowland has the audacity to call himself the friend of the working man.

Recently one of the syndicated columnists for a large laborhating newspaper quoted a Republican Senator as saying it's too bad we don't have enough Bill Knowlands here in Washington. For which the six million unemployed should get down on their knees and thank the Lord

Let us; working people Democrats and Republican alike of California firmly hope that on the night of November 4 we have one less Knowland masquerading as our potential Governor and friend of the working man. Through our rousing denunciation of Knowland his followers and the infamous Proposition 18 we can guarantee a decent future for ourselves and our children and completely destroy the legend of Big Bill Knowland

So voters let's retire Know-Thirvin D. Fleewood,

Los Angeles Democrat.

New Music Store Opens in City

This week Torrance welcomes to its ever-growing family of business and service institutions the Marshall Music Store, at 1124-B Crenshaw blvd. The proprietor is Marshall "Tiny" Rips, long-time musical instrument consultant to many teachers and families in the South Bay Area.

"Tiny" has a varied background in the musical field. Possessing a Bachelor's degree from Texas A. and I. College and a Master of Music from USC, he has done a considerable amount of teaching, both public and private, and therefore feels that he can understand the problems of Music Educators. In addition, he has played with a wide variety of professional organizations, among them the Houston Symphony, and the archestras of Abe Lyman, Frankie Carle, Jimmy Greer, Charlie Barnet, and countless others. He is still actively engaged in playing the saxophone and other woodwind instruments in the Hollywood recording studios, motion pictures and private parties every few
